Coverage of cold environment survival is superb. Haven't read more of the Air Force manuals but have lived in cold climates and whereof it speaks. Army manual FM 21-76 is also good, especially for warm and hot climates as is "Bushcraft" by Richard Graves of Australia. 64-4 is 569 pages so it takes more than an afternoon's perusing.

The Air Force Survival Training manual (specifically the AFR-64) is, in my opinion, the cream of the crop. In fact, many of the numerous commercial and military books and manuals are based off of this manual (much of which which is copied verbatim — both the words and text!). I feel it is much better than the Army Survival Manual (FM 3-05.70 ...
