In terms of landscape, it is often important to remember that a variety of lines, forms, textures and colours is required in order to achieve an interesting landscape. Without variety in both the use of 'hard' and 'soft' landscape materials, this can lead to unfavourable results. A variety of forms creates significant landscape interest.

Basic Principles and Elements of Landscape Design

Creating a sense of place, or identity, in any landscape design includes utilizing elements that fit in with the context of the site, which may be historical, cultural, environmental or geographical. In addition, architectural features that help create or enhance the special character of a place can be functional, whimsical and/or simply beautiful.
