Chinese Foreign Relations With Weak

Unequal economic exchange between China and its weak neighbours results in Chinese influence over the state's domestic institutions, what this book refers to as 'structural power'. Chinese structural power, in turn, can undermine the state's development, contribute to social unrest, and exacerbate existing state/society tensions—what this book refers to as 'structural violence'.

Amazon.com: Chinese Foreign Relations with Weak Peripheral ...

Book Description. This book examines China's relations with its weak peripheral states through the theoretical lens of structural power and structural violence. China's foreign policy concepts toward its weak neighbouring states, such as the 'One Belt, One Road' strategy, are premised on the assumption that economic exchange and a commitment to common development are the most effective means of ensuring stability on its borders.
