Golfshot gets GPS readings directly from the iPhone hardware. GPS requires a clear view of the sky and can take 1 minute or longer to get an accurate signal. It is best to allow this signal to always read from GPS. However, the phone may try to Auto-Lock to turn off the phone and preserve battery life. For the best GPS results within Golfshot,

First of all, choose the place for the colour screen inside your vehicle. We would advise you to fit it in the centre of the dashboard or near you. Make sure that you can view the screen at a good angle and that it does not obstruct your view of the road. Once the hands-free kit is fully installed and switched.
