CSE Style was originally established for the biological sciences. It uses alpha references within the text. Many physical

and engineering citation styles use numeric references within the text and are based on the American Chemical Society Style.

CSE - Citation Help - Research Guides at Ohio State University

Scientific Style and Format presents three systems for referring to references (also known as citations) within the text of a journal article,

book, or other scientific publication: 1) citation–sequence; 2) name–year; and 3) citation–name. These abbreviated references are called in-text references. They refer to a list of references at the end of the document.
