Though it is very conducive to being used as a textbook, Vern Poythress' Logic: A God-Centered Approach is part logic textbook and part theology of logic. It comes as the newest installment in a long line of "God-centered approaches" offered by Poythress (see also science, language, and sociology). Much like those volumes, this one draws on John

that we must not fall into either a non-Christian view of transcendence (i.e., logic doesn't apply to God) or a non-Christian view of immanence (i.e., we can capture God with logic). Thus, we must maintain that our reasoning does apply to God without becoming gods and making God subject to our reasoning.
