1. Convert your family into a team of scientists. The purpose of a bioblitz is to get an overall count of the plants, animals, fungi, and other living things that make their home in a certain area. Bio is a Greek word for life, and blitz is German for lightning. How many species do you think your family can identify in one afternoon? Arm yourselves with cameras and clipboards and venture outside.

Backyard Bioblitz | National Geographic Society

National Geographic Backyard Guide to Insects and Spiders An accessible visual guide to the top 150 insects and spiders, this guide combines readable text, representative photographs, and explanatory illustrations to highlight key features of body shape, life cycle, and behavior.

National Geographic Backyard Guide to the Birds of North ...

Essential for the estimated 62 million Americans who watch and feed birds in their backyards—from the experts at National Geographic and co-author of the popular and perennial best seller Field Guide to the Birds of North America.

National Geographic Backyard Guide to the Birds of North ...

Idea for Use in the Classroom. Introduce food chains and food webs to students and go through vocabulary associated with these concepts. Make sure to include terms that describe an organism by what it feeds on (herbivore, carnivore, and omnivore) and the trophic levels (primary producer, primary consumer, secondary consumer, tertiary consumer, and decomposer).

Who's in My Backyard? | National Geographic Society

The Backyard Guide has some decent general information and is certainly compact, but NightWatch (now in its fourth edition, if that gives you an idea of its refinement and enduring legacy) has the edge on field usability because of its spiral binding.
