National Geographic

An artifact is an object made by a human being. Artifacts include art, tools, and clothing made by people of any time and place. The term can also be used to refer to the remains of an object, such as a shard of broken pottery or glassware.

Artifacts | National Geographic Society

Storytelling is the act of telling or writing stories, or narratives. Typically, stories are told for entertainment, for informational purposes, or for educational purposes. Storytelling is universal to the human experience. Indeed, although it is likely impossible to prove, it has been suggested that storytelling developed not long after the development of language itself.

Storytelling | National Geographic Society

The mantle is the mostly-solid bulk of Earth's interior. The mantle lies between Earth's dense, super-heated core and its thin outer layer, the crust. The mantle is about 2,900 kilometers (1,802 miles) thick, and makes up a whopping 84% of Earth's total volume.

mantle | National Geographic Society

Gilbert H. Grosvenor, the first full-time editor of National Geographic, described maps as “the greatest of all epic poems. It's lines and colors show the realization of great dreams.” Learn more about the basics of reading a map, creating a map, and choosing the best map projection.
