teaching with poverty in mind by eric jensen 2. UNDERSTAND THE EMOTIONAL KEYBOARD Some staff may interpret students' emotional and social deficits as a lack of respect or manners, but it is more accurate and helpful to understand that the students come to school with a narrower range of appropriate emotional responses than we expect.

Teaching with poverty in mind by eric jensen

Many students from poverty won't make the effort unless they know we care. Data helps us find our areas of success and the areas in which we need to do better. It is key to our ultimately being accountable for what students are learning. Good data and accountability together can help the school system move in a positive academic direction.
