As this powerful book argues, violence against women should be understood as a systemic problem—one for which the state must be held accountable. The twelve essays in Gender Violence in Peace and War present a continuum of cases where the state enables violence against women—from state-sponsored torture to lax prosecution of sexual assault.

Violence in War and Peace: An Anthology - ResearchGate

Positive peace means no war or violent conflict combined with a situation where there is equity, justice and development. The absence of war by itself does not guarantee that people do not suffer psychological violence, repression, injustice and a lack of access to their rights. Therefore, peace cannot be defined only by negative peace.

Peace and Violence - Council of Europe

The absolute number of war deaths has been declining since 1946. In some years in the early post-war era, around half a million people died through direct violence in wars; in contrast, in 2016 the number of all battle-related deaths in conflicts involving at least one state was 87,432.

War and Peace - Our World in Data

Sexual violence during and after violent conflict is increasingly recognized as a threat to international peace and security. On February 18, 2015, Dr. Jelke Boesten discussed the implications of wartime sexual violence on gender and power dynamics through an analysis of the Peruvian armed conflict.
