Webasto Diesel Air Heaters FAQs – RV market Question 24 –How is the heater connected to the fuel tank? In caravans the heater is connected directly to a 12L fuel tank that we can supply. With Motorhomes, fuel is taken from the vehicle's own fuel tank via a fuel standpipe.

Frequently Asked Questions Air Top Diesel ... - Webasto

Most air diesel heater kits come with a 10L or 15L translucent fuel tank. These are usually too big to fit so I use 5L or 7L sized instead. You can fit the supplied fuel tank outlet or fit a top outlet pick up tube instead. You can lower the van fuel tank and fit a pick up tube in to the main supply but that is a bigger job.
